

Problem Statement : Understanding the HTML basics – Body, Header, Paragraph, etc.

HTML CODE :

```
<DOCTYPE HTML>
<html>
  <header>
    <title>WT Lab 1</title>
  </header>
  <body>
    <h1>Web Technologies Lab 1</h1>
    <h2>Introduction to Web Development</h2>
    <p>Welcome to Web Technologies Lab 1</p>
  </body>
  <footer>
    <p>Author : Khush Patel</p>
    <p>Date : 23-07-2026</p>
  </footer>
</html>
</DOCTYPE>
```

Output of the above code :

Web Technologies Lab 1
