

Problem Statement :

Your Communications instructor has asked each student in the class to create a two-page Web site to help students in the class get to know more about the area in which you are majoring in school. The first Web page is a home page that includes basic information about your major. If you can, add an image related to your chosen field somewhere on the Web page. Add a link to the second Web page. The second Web page includes a paragraph of text and numbered lists with links.

HTML CODE FOR HOME PAGE :

```
<DOCTYPE HTML>
<html>
  <header>
    <title>Home Page</title>
  </header>
  <body>
    <h1 style = "text-align : center;"> HOME PAGE</h1>
    <h2>Hello! I am Khush, Want to know about my major?</h2>
    <p>I am a student of BTECH CSE curriculum. i have no current specializations of
majors since i study CSE core.</p>
    <p>In core CSE, you get to learn and experience vareity of subjects in computer
science division instead of focusing on a particular one.</p>
    <p>I get to learn about coding, web designing, AI/ML, Data science and etc</p>
    <p><br><br></p>
    <p><b>To know more about my major and career opportunities, Kindly visit this
page below.</b></p>
    <p><a
href="file:///C:/Users/Khush/Documents/COLLEGE%20PROJECTS/WEB%20TECH%20
PRACTICALS/5TH%20PRACTICAL/2nd%20page.html" title="Know more about this
major" target="_blank">Get more info here.</a></p>
  </body>
</html>
</DOCTYPE>
```

OUTPUT :

HOME PAGE
